

HEALTH & SAFETY POLICY STATEMENT

Date: 20 March 2023

(Supersedes all previous versions)

It is the policy of Buildtec to ensure that all company activities are performed in a manner that protects the health and safety of employees, subcontractors, customers, consultants, visitors and the general public.

Buildtec recognises improved health and safety performance will be achieved by management and employees working together to develop safe systems and maintaining a safe work place.

PRINCIPLES

Buildtec will seek to comply with all applicable laws, regulations and other industry standards, codes of practice and guidelines relating to occupational health and safety.

Buildtec is committed to:

- Ensuring that health and safety information including this policy is communicated and available to all employees and contractors and is available to other interested parties;
- Ensuring employees and contractors understand their health and safety responsibilities by providing safety awareness inductions
- Promoting and protecting the physical and psychological health and safety of workers;
- Providing a safe environment for all workers and visitors to our workplace
- Managing work health and safety risks in the workplace
- Requiring that all workers are competent and suitably trained to undertake their work activities safely;
- Empowering our people to stop any activity that they think has the potential to cause harm;
- Consulting employees and other PCBU's on decision making that impacts on workplace health and safety;
- Identifying, communicating and monitoring health and safety objectives and performance measures at all levels within the business against established measurable targets; and
- Developing, maintaining and continuously improving our systems and procedures that support us in working safely.;

Should a worker be injured, Buildtec is committed to their early and safe return to work through our return to work policy and rehabilitation programme.

There is no task we undertake that is so important, we can't take the time to find a safe way to do it.
